• Call Louder — Sales CRM Dashboard

[Preview ↗](#) | [Live ↗](#)

Built a production-grade full-stack CRM platform managing 2,000+ leads across 20+ sales agents. Architected real-time data streaming using Server-Sent Events (SSE), offloaded heavy computation to Worker Threads, and integrated Web Push Notifications to alert agents on new assignments and follow-ups without requiring them to stay on the dashboard. Built role-based access control, appointment scheduling, and optimistic UI updates via React Query.

• Fundist — Investor-Startup Matching Platform

[Preview ↗](#) | [Live ↗](#)

Developed the frontend of a fintech platform serving 1,500+ investors and 150+ startups with smart matchmaking across 100,000+ match records and 43,000+ deal flows. Built drag-and-drop pitch deck workflows using React DnD, interactive pipeline visualizations with React Flow, and high-performance paginated tables with TanStack Table. Implemented multi-panel admin dashboards for both founder and investor portals.

React.js · React Flow · React DnD · React Query · TanStack Table · Chakra UI

• AirBrick — Interior Design Platform

[Preview ↗](#) | [Live ↗](#)

Built the frontend of an interior design platform featuring 20,000+ showcase images and 32,000+ materials with lazy loading, masonry layouts, and 3D/AR visualization previews. Developed a multi-step cost estimator, project tracker, and site-visit booking flow with e-commerce procurement and secure payments across a fully responsive MUI component architecture.

React.js · Material UI (MUI) · Axios · React Lazy · Masonry Layout
